# LGU portal

SMS / Chat / Web reports are linked to KontraCOVID LGU portal

- LGU gets **notified** whenever there are new case reports or user-updated cases

- LGU can filter cases per barangay

The screenshot displays the PH KONTRA COVID BETA interface. At the top right, it shows the user profile 'DOHS User'. The main dashboard features a 'Toggle Filters' bar and five summary cards:

- COVID-19 Confirmed:** 1 (Verified 0%)
- Reported Suspect Severe:** 1669 (Verified 0%)
- Reported Suspect Mild:** 1089 (Verified 0%)
- Reported Probable:** 22 (Verified 0%)
- Low Risk for Covid:** 3557 (Population Proportion 0.00%)

A notification list is overlaid on the dashboard, showing three alerts:

- New Low Risk Report:** A 31 y/o Female reported her symptoms. Wed Aug 19 2020, 12:31:42 PM
- New Suspect - Severe Report:** A 0 y/o Female reported her symptoms. Wed Aug 19 2020, 10:03:05 AM
- TanodCovid Self Update:** Somebody updated his/her symptoms. Tue Aug 18 2020, 9:29:18 AM

The notification list includes a 'Mark All As Read' button at the bottom. Other visible elements include a 'QC Tester' profile, an 'Exposure' donut chart showing 168, and a sidebar with navigation options like Dashboard, Case Management, Maps, and Trace List.
