Innovation in the UK: The UKRI Model

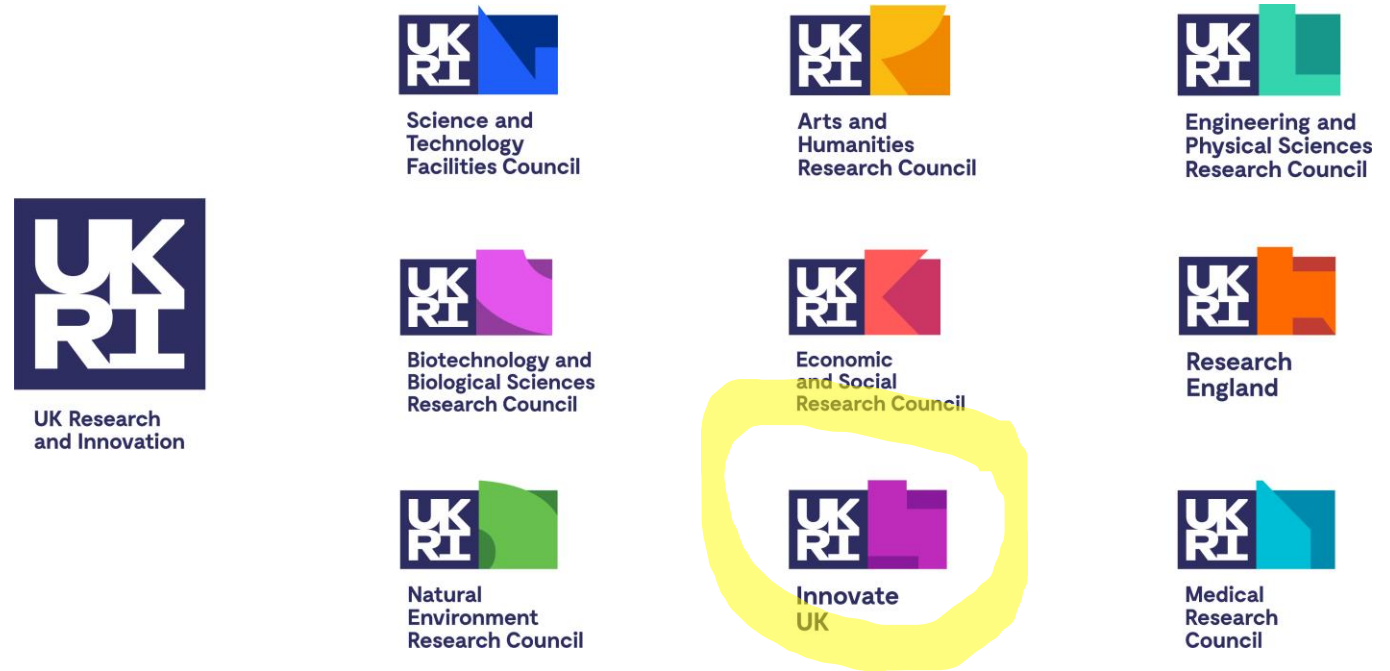

15 November 2022

Rebecca Fairbairn, Director UKRI India

UK Research and Innovation

UKRI was formed in April 2018 to convene, catalyse and invest in a UK research and innovation system that **connects discovery to prosperity and public good.**

UKRI brings together the 7 thematic UK research councils, **Innovate UK** and Research England, working closely with partner organisations across the UK.

UKRI has offices based at the Embassies in Beijing, New Delhi, Washington DC, and in Brussels.

Innovate
UK

Innovate UK is the UK's national innovation agency. We support business-led innovation in all sectors, technologies and UK regions. We help businesses grow through the development and commercialisation of new products, processes, and services, supported by an outstanding innovation ecosystem that is agile, inclusive, and easy to navigate.

The cover of the 'Innovation Plan for Action for UK Business Innovation 2021-2025' report. It features a large purple background with a white header and footer. The header contains the UKRI logo and the text 'Innovate UK'. The main title is 'Building the future economy' in large white font, followed by 'Plan for action for UK business innovation' in smaller white font. Below the title is the tagline 'inspire | involve | invest'. The footer contains the text '2021-2025'. The cover is decorated with a grid of small white icons representing various aspects of innovation, such as science, technology, and business.

2021-2025

Our approach

The UK Government's vision: for the UK to be a global hub for innovation by 2035.

Our Mission: We will help companies grow through their development and commercialisation of new products, processes and services, **supported by an outstanding innovation ecosystem that is agile, inclusive and easy to navigate.**

We are:

- Innovate UK and UKRI
- HMG, including defence
- British Business Bank
- Intellectual Property Office
- British Standards Institution, National Physical Laboratory and wider National Measurements System

Our Five Themes

**Future
economy**

**Growth
at scale**

**Global
opportunities**

**Innovation
ecosystem**

**Government
levers**

**UK Research
and Innovation**

Our Model: Summary

1. Understand the opportunities and obstacles – should we engage?
2. Agile partnership for coordinated, visible, systemic change
3. Focus on innovators not just innovations
4. Equality, Diversity, Inclusion
5. Appraisal and evaluation
